

My Philosophy (Montessori inspired)

Montessori teaching is a method that is becoming quite popular in today's society, and for good reason! I love their simplistic approach to child care and child play. It's very self-directed and hands on, which encourages imagination and individual liberty. I am there, of course, to supervise constantly. I also love to get down on their level and play with them, as we know that this is important for children as well, but I also love what this style of teaching promotes. With that being said, these are some of the activities I'm excited to be able to offer!

- Arts & Crafts
- Books
- Piano Playing
- Building Blocks
- Puzzles
- Card Games
- Board Games
- Fort Building
- Sensory Activities
- Stacking Towers
- Train Sets
- Toy Food
- Outdoor activities
 - Riding bikes/scooters
 - Going for walks
 - Playing with the Dog
 - Chalk
 - Yard Games
